Dear Mr. Rothstein,

Tom and I join the Becks in congratulating you on a job well done concerning the water facility at Stanton and Festival. We live in Sky Island and I look out my kitchen window at that project. When I saw that big hole being dug, I never imagined it would look so attractive after completion! The rockwork is so attractive and thank you for replanting the natural desert plants. Bath Engineering and you deserve much credit.

Sincerely,

A handwritten signature in cursive script that reads "Marguerite Sanderson".
